

THERMOMETER FOR SMOKEHOUSE, BBQ AND GRILL

DESCRIPTION

Thermometer is designed to be built into a smokehouse, for barbecue or grilling. The distinctive printed scale indicates the temperature ranges recommended for specific preparation of the food. The thermometer is not intended for direct food temperature measurement.

For thermometer you can choose the diameter of the head, the length of the stem and the language. It is possible to print descriptions or logos on the scale according to the customer's wishes after agreement with the manufacturer.
